INDEX TO VOLUME XXII OF THE JOHNS HOPKINS HOSPITAL BULLETIN.

Abcess, Peri-tonsillar, 60.
Acidosis, Diabetic, 46.
Adeno-carcinoma and mixed-celled sarcoma of the ovary, Combined, 367.
Adhesions, peritoneal, A synopsis of studies on, with a contribution to the treatment of denuded bowel surfaces, 283.
Amnion, The relation of the, to the origin of human malformations, 35.
Anatomist, A Florentine, 140.
Anderson, D. B., King, J. H., Chaffee, B. S., and Redelings, L. H., Studies in glycosuria. I. Ether glycosuria, 388.
Anterior poliomyelitis—note, 300.
Antiformin, The use of, in the examination of sputum for the tubercle bacillus, 269.
Antitoxin, the preparation of, 106.
Aortic insufficiency, The changes in the circulation in, 197.
Art as applied to medicine, 350.
Ascaris lumbricoides, The viability of parasitic ova in two per cent formalin, with especial reference to, 29.
Austrian, C. R., Hyperleucocytosis of high grade in broncho-pneumonia in a child, 296.
Austrian, C. R., The viscosity of the blood in health and disease, 9.
Bacteriology of the Baltimore City water, Some observations on the, 53.
Baetjer, F. H., The stereoscopic X-ray examination of the chest with especial reference to the diagnosis of pulmonary tuberculosis. (Discussion.) 229.
Bailey, P., A Florentine anatomist, 140.
Banzhaf, E. J., The preparation of antitoxin, 106.
Barnes, F. M., and Moss, W. L., Concerning the Much-Holzman reaction, 278.
Benzol, "C. P.," Investigation into several cases of poisoning by vapors of, 8.
Bergtold, W. H., The haven of health, 303.
Blood picture in Hodgkin's disease, 369.
Blood picture in tuberculosis, 428.
Blood platelets and megalokaryocytes in Hodgkin's disease, 114.
Blood, The clinical value of the determination of the catalytic activity of the, 109.
Blood, The viscosity of the, in health and disease, 9.
Boardman, W. W., The use of antiformin in the examination of sputum for the tubercle bacillus, 269.
Boardman, W. W. and Dunham, H. K., The calcification of the costal cartilages, the cardio-thoracic index and other signs of pulmonary tuberculosis, 247.
Boardman, W. W., Dunham, H. K. and Wolman, S., The stereoscopic X-ray examination of the chest with especial reference to the diagnosis of pulmonary tuberculosis, 229.
Books received, 32, 99, 164, 314, 439.
Boylston, Zabdiel, inoculator, and the epidemic of smallpox in Boston in 1721, 315.
Brain tumor, Distortions of the visual fields in cases of, 190.
Brödel, M., In memoriam. August Horn, 21.
Brödel, M., The new department in the Johns Hopkins University. "Art as applied to medicine," 350.
Brown, G. L. and Moss, W. L., Variations in the leucocyte count in normal rabbits, in rabbits following the injection of normal horse serum, and during a cutaneous anaphylactic reaction, 258.
Brown, H. A. and Woolley, P. G., An anomalous duct belonging to the urinary tract, 21.
Brown, T. R., Urinary hyperacidity and its relation to neuritis, neuralgia and myalgia, 1.
Bunting, C. H., Blood platelets and megalokaryocytes in Hodgkin's disease, 114.
Bunting, C. H., The blood picture in Hodgkin's dease, 39.
Bursitis, Tubercular, 155.
Cancer, angioma and keloid, Employment of radium as an aid to surgery in the treatment of, 127.
Carbohydrate tolerance and the posterior lobe of the hypophysis cerebri, 165.
Carcinoma of the pleura, Primary, 289.
Carcinoma of the right Fallopian tube readily palpable through the abdomen, 20.
Chaffee, B. S., King, J. H., Anderson, D. B. and Redelings, L. H., Studies in glycosuria. I, Ether glycosuria, 388.
Chiari, H., Necrosis of the pancreas, 39.
Chiari, H., Spondylolisthesis, 41.
Chiari, H., The relation of the amnion to the origin of human malformations, 35.
Cholecystitis, Acute, with large amounts of calcium soap in the gall bladder, 223.
Churchman, J. W., Acute cholecystitis with large amounts of calcium soap in the gall bladder, 223.
Churchman, J. W., Primary general peritonitis with isolation of the B. lactis aerogines in pure culture from the peritoneal exudate, 116.
Churchman, J. W., The medical paintings of Velasquez, 383.
Circulation, The changes in, in aortic insufficiency, 197.
Cone, S. M., Tubercular bursitis, 155.
Cullen, E. K., Combined adeno-carcinoma and mixed-cell sarcoma of the ovary, 367.
Cullen, T. S., Carcinoma of the right Fallopian tube readily palpable through the abdomen, 20.
Cushing, H., Goetsch, E. and Jacobson, C., Carbohydrate tolerance and the posterior lobe of the hypophysis cerebri, 165.
Cushing, H. and Heuer, G. J., Distortions of the visual fields in cases of brain tumor, 190.
Cystostomy, suprapubic, A device to aid in keeping the patient dry after a, 160.
Dante Alighieri, Notes on the Divine Comedy of, 333.
Davis, J. S., A further note on the clinical use of scarlet red and its component amido-azotoluol, in stimulating the epitheliation of granulating surfaces, 210.
Davis, J. S., The transplantation of free flaps of fascia, 372.
Deformities, congenital, A case of, 56.
Dernehl, P. H., Medical notes on the Divine Comedy of Dante Alighieri, 333.
Diabetic acidoses, 46.
Diphtheria, The recent epidemic of, in the Johns Hopkins Hospital and Medical School, 357.
Distoma pulmonale in Wisconsin, 112.
Dunham, H. K., and Boardman, W. W., The calcification of the costal cartilages, the cardio-thoracic index and other signs of pulmonary tuberculosis, 247.
Dunham, H. K., Boardman, W. W. and Wolman, S., The stereoscopic X-ray examination of the chest with especial reference to the diagnosis of pulmonary tuberculosis, 229.
Embryology and obstetrics in ancient Hebrew literature, 143.
Embryonic chick tissues, The growth of, in artificial media, agar and bouillon, 126.
Endaortitis, Acute tuberculous, 82.
Erythema multiforme iris during the course of typhoid fever, 79.
Fascia, Transplantation of free flaps of, 373.
Fever, malarial, Grave, with few parasites in the peripheral circulation. Dangers of the intravenous injection of quinine, 101.
Fever, malarial, Intermittent fever in influenza simulating, 101.
Fever, typhoid, Erythema multiforme iris during the course of, 79.
Fitz, Reginald H., Zabdiel Boylston, inoculator, and the epidemic of smallpox in Boston in 1721, 315.

Ford, W. W., The life and work of Robert Koch, 415.
Ford, W. W., The recent epidemic of diphtheria in the John Hopkins Hospital and Medical School; general procedures adopted, 357.
Ford, W. W., Some observations on the bacteriology of the Baltimore City water, 53.
Ford, W. W. and Watson, E. M., The problem of typhoid fever in Baltimore, 351.
Fracture, transverse of the body of the ischium in 1893; terminal displacement in 1902; diagnosticated in 1909, 57.
Gatch, W. D., Report of a case of extensive Tiersch skin graft, 84.
Gelien, J. and Moss, W. L., Serum treatment of hemorrhagic diseases, 272.
Glaser, C., Investigation into several cases of poisoning by vapors of "C. P." benzol, 8.
Goetsch, E., Cushing H. and Jacobson, C., Carbohydrate tolerance and the posterior lobe of the hypophysis cerebri, 165.
Growth of embryonic chick tissues in artificial media, agar and bouillon, 126.
Gudernatsch, J. F., The relationship between the normal and pathological thyroid gland of fish, 152.
Glycosuria, Ether, 388.
Hamman, L. V., The stereoscopic X-ray examination of the chest with especial reference to the diagnosis of pulmonary tuberculosis. (Discussion.) 299.
Hanson, H., Distoma pulmonale in Wisconsin, 112.
Haven of Health, The, 303.
Hazen, H. H. and Parker, H. P., Erythema multiforme iris during the course of typhoid fever, 79.
Hemoglobinuria, paroxysmal; blood studies in three cases, 238.
Hemorrhagic diseases, Serum treatment of, 272.
Herter, Dr. Christian Archibald, 411.
Herter, Christian A., In memoriam, 161.
Herter Foundation, Lecturers on the, 35.
Heuer, G. J. and Cushing, H., Distortions of the visual fields in cases of brain tumor, 190.
Hodgkin's disease, Blood platelets and megalokaryocytes in, 114.
Hodgkin's disease, The blood picture in, 369.
Horn, August. In memoriam, 21.
Hospital staff, December 1, 1910, 67.
Hyperacidity, Urinary, and its relation to neuritis, neuralgia and myalgia, 1.
Hyperleucocytosis of high grade in broncho-pneumonia in a child, 296.
Hypophysis cerebri, the posterior lobe of the, and carbohydrate tolerance, 165.
Influenza, Intermittent fever in, simulating malarial fever, 101.
Ischium, Transverse fracture of the body of the, in 1893; terminal displacement in 1902; diagnosticated in 1909, 57.
Jacobson, C., Goetsch, E. and Cushing, H., Carbohydrate tolerance and the posterior lobe of the hypophysis cerebri, 165.
Jaundice, hæmolytic congenital, Two cases of, with splenomegaly, 85.
Jaundice in pneumonia, Notes on, 408.
Kahn, M., Molière and the physician, 344.
Kidney, Absence of left, patient ductus botalli and chronic peripheral œdema, 56.
King, J. H., Chaffee, S. B., Anderson, D. B. and Redelings, L. H., Studies in glycosuria. I. Ether glycosuria, 388.
Kingsley, C. R., A case of congenital deformities (patent ductus botalli; absence of left kidney and chronic peripheral œdema), 56.
Knopf, S. A., Robert Koch, 425.
Knopf, S. A., The Starnook—A new device for the resteure in the open air and for outdoor sleeping, 301.
Koch, Robert, 425.
Koch, Robert, The life and work of, 415.
Krause, A. K., Experimental studies on tuberculoprotein hypersensitiveness and their possible applications, 250.
Lenhart, C. H., and Marine, D., On certain limitations in interpreting thyroid histology, 221.
Leucocyte count, Variations in the, in normal rabbits, in rabbits following the injection of normal horse serum, and during a cutaneous anaphylactic reaction, 258.
Leutscher, J. A., Infection of the urinary tract by the Bacillus *lactis wrogenes*, with a consideration of the mode of entrance of bacteria into the bladder, 361.
Lewis, M. R., The blood picture in tuberculosis, 428.
Lewis, M. R. and Lewis, W. H., The growth of embryonic chick tissues in artificial media, agar and bouillon, 126.
Lipectomy, Abdominal, 411.
Liver, Cirrhosis of the, 69.
Liver, Disseminated caseating tuberculosis of the, 146.
Liver, The effort of occlusion of the various hepatic vessels upon the, 396.
McCrae, T., Typhoid spine; with the report of two additional cases with bony changes in the vertebræ, 75.
McPhedran, Fletcher, Notes on jaundice in pneumonia, 408.
MacCallum, W. G., The changes in the circulation in aortic insufficiency, 197.
Macht, D. I., Embryology and obstetrics in ancient Hebrew literature, 143.
Magnus-Levy, A., On diabetic acidosis, 46.
Malformations, human, The relation of the amnion to the origin of, 35.
Mallory, F. B., Cirrhosis of the liver. Five different types of lesions from which it may arise, 69.
Marine, D. and Lenhart, C. H., On certain limitations in interpreting thyroid histology, 217.
Martin, Henry Newall, 327.
Molière and the physician, 344.
Morris, R. S., The viability of parasitic ova in two per cent formalin, with especial reference to ascaris lumbricoides, 299.
Morris, R. S. and Thayer, W. S., Two cases of congenital hæmolytic jaundice with splenomegaly. Observations on hæmolytic jaundice, 85.
Moss, W. L., Paroxysmal hemoglobinuria; blood studies in three cases, 238.
Moss, W. L., and Barnes, F. M., Concerning the Much-Holzmann reaction, 278.
Moss, W. L. and Brown, G. L., Variations in the leucocyte count in normal rabbits, in rabbits following the injection of normal horse serum, and during a cutaneous anaphylactic reaction, 258.
Moss, W. L. and Gelien, J., Serum treatment of hemorrhagic diseases, 272.
Much-Holzman reaction, Concerning the, 278.
Nasal septum, The submucous resection of the, 121.
Notes and News, 23.
Notes on new books, Abbott, A. C., The principles of bacteriology, 131;—Abrams, A., The blues, 196;—Adam, C., Handbook of treatment for diseases of the eye, 382;—Adami, J. G., The principles of pathology, 412;—Alger, E. M., Refraction and motility of the eye, 26;—Allen, R. W., Vaccine therapy. Its theory and practice, 32;—Annual report from the chemical works of E. X-ray examination of the chest, Stereoscopic, with especial reference to the diagnosis of pulmonary tuberculosis, 229.

ILLUSTRATIONS.

Carcinoma of the right Fallopian tube (Plate I, Figs. 1-2), 20.
August Horn, 22.
Spondylolisthesis (Plate II, Figs. 1-7), 44.
Human malformations (Plates III-IV, Figs. 1-8), 44.
Congenital deformities (Plate V, Figs. 1-5), 56.
Transverse fracture of body of right ischium, 58.
Key to plate, 58.
Cirrhosis of the liver (Plates VI-XI. 1-24), 74.
Acute tuberculous endaortitis (Plate XII, Figs. 1-3), 82.
Tiersch skin graft (Plate XIII, Figs. 1-2), 84.
Influenza and malarial fever (Charts I-IV), 102-103.
Blood platelets and megalokaryocytes in Hodgkin's disease (Plate XIV, Figs. 1-4), 114.
Submucous resection of the nasal septum (Figs. 1-2), 123.
Flapholder and speculum, 124.
Sir Richard Owen (Plate XV), 138.
Sheen Lodge, Richmond Park, 139.
Disseminated caseating tuberculosis of the liver with cavity formation, 147.
Expansion of the thyroid gland, 152.
Sections through the thyroid gland of Sarda, 153.
Sections through the thyroid gland of Brevoortia and Salvelinus, 154.
Tubercular bursitis (Plate XVI, Figs. 1-5), 158.
Magnification of posterior and anterior lobe, 169.
Second magnification, 170.
Section of tissue removed at operation; intact posterior lobe, 176.
Magnification of same, 176.
Practically intact posterior lobe, 177.
Magnification of same, 177.
Intact posterior lobe and magnification of same, 179.
Perimeter charts (Figs. 1-2), 192.
Stereoscopic X-ray examination of the chest, 230.
Mechanism illustrating changes in the circulation in aortic insufficiency, 199.
Curves illustrating changes in the circulation in aortic insufficiency (Curves I-IX), 205-209.
Epithelialion of granulating surfaces (Figs. 1-3), 213-215.
Anomalous duct belonging to the genito-urinary tract (Plate XVII, Figs. 1-7), 222.
Diagram of gall bladder, together with cystic, hepatic and common ducts, 223.
Extensive denuded area on surface of ileum, 287.
Flap of peritoneum attached to raw bowel surface, 287.
Cross section of bowel and mesentery, 288.
Plication modification, 288.
Primary carcinoma of the pleura (Plates XVIII-XX, Figs. 1-12), 292.
Exterior and interior views of Starnook (Figs. 1-6), 301-303.
Title page, The Haven of Health, 304.
Adenocarcinoma and mixed-cell sarcoma of the ovary (Plates XXI-XXII, Figs. 1-7), 368.
Fascia to replace tendo Achillis, 374.
Fascia replacing defect in sartorius muscle, 374.
Fascia around vessels and on trachea, 375.
Fascia filling defect made by removal of patella, 375.
Fascia into joint after removal of cartilage, 376.
Fascia into skull and dura defect, 376.
Fascia over defect in trachea, 377.
Fascia in peritoneal defect, 379.
Fascia on lobe of liver, 380.
Transplantation of fascia (Plate XXIII, Figs. 5, 9 and 12), 380.
The medical paintings of Velasquez (Plates XXIV-XXVI, Figs. 1-12), 384-386.
Emboli of portal vein (Plate XXVII), 402.
Area of congestion following embolus of portal vein, 403.
Healed incision after abdominal lipectomy, 410.
Abdominal supporter worn after operation, 410.
Slab of skin and fat, 410.
R[obert] Koch, 427.
Neutrophiles (Plate XXVIII, Figs. 1-30), 433.

JUST ISSUED

THE JOHNS HOPKINS HOSPITAL REPORTS

Volume XVI (1911). 670 Pages and 151 Illustrations

I. Studies in the Experimental Production of Tuberculosis in the Genito-Urinary Organs. By GEORGE WALKER, M. D.

II. The Effect on Breeding of the Removal of the Prostate Gland or of the Vesiculæ Seminales, or of Both; together with Observations on the Condition of the Testes After Such Operations on White Rats. By GEORGE WALKER, M. D.

III. Scalping Accidents. By JOHN STAIGE DAVIS, M. D.

IV. Obstruction of the Inferior Vena Cava with a Report of Eighteen Cases. By J. HALL PLEASANTS, M. D.

V. Physiological and Pharmacological Studies on Cardiac Tonicity in Mammals. By PERCIVAL DOUGLAS CAMERON, M. D.

PRICE IN CLOTH, $5.50. PAPER, $5.00

Orders and remittances should be addressed to THE JOHNS HOPKINS PRESS, Baltimore, Md.
